

M A Aziz Siddiqi

Passport: B00083801 | **Work permit:** Bangladeshi | **Date of birth:** 31/12/1994 |

Place of birth: Dhaka, Bangladesh | **Nationality:** Bangladeshi | **Phone number:**

(+880) 1729637445 (Mobile) | **Email address:** azizsiddiqirahel@gmail.com |

Address: 597/1 East Kazipara, Kafrul, Dhaka, 1216, 5A, 1216, Dhaka, Bangladesh (Home) |

Address: 118-121, Tejgaon Industrial Area, Dhaka 1208, 1208, Dhaka, Bangladesh (Work)

WORK EXPERIENCE

CTO AND CO-FOUNDER – GUIDEASY GLOBAL LIMITED – 01/11/2023 – Current – ISTANBUL, TURKEY

Business or Sector: Accommodation and food service activities | **Department:** Software Development |
Email: rahel@guideasy.com | **Website:** www.guideasy.com

- Lead the development of web applications utilizing modern technologies such as Laravel, Livewire, Nuxt.js, MySQL, and Tailwind CSS to deliver scalable and efficient solutions.
- Designed and implemented secure and robust RESTful APIs to facilitate seamless integration with third-party services and internal systems.
- Write clean, efficient, and reusable code and libraries that promote maintainability and accelerate future development efforts.
- Collaborate closely with cross-functional teams, including developers, UX designers, and stakeholders, to ensure alignment with business objectives and user needs.
- Develop and enforce quality assurance procedures, conducting thorough testing and evaluation of new programs to ensure reliability and performance.
- Built a comprehensive Content Management System (CMS) for managing products, vendors, and clients, tailored for a tours and travel application, enhancing operational efficiency.

SENIOR WEB DEVELOPER – DAINIK AMADER SHOMOY – 01/12/2022 – Current – DHAKA, BANGLADESH

Business or Sector: Other service activities | **Department:** IT and Software Development |
Email: info@dainikamadershomoy.com | **Website:** www.dainikamadershomoy.com

- Lead the migration of legacy codebases to modern, secure frameworks, ensuring improved application resilience against vulnerabilities.
- Design, develop, and maintain secure RESTful APIs with proper authentication and authorization mechanisms to safeguard data integrity and confidentiality.
- Write reusable, secure, and efficient code libraries following best practices in software security and secure coding standards.
- Conduct thorough code reviews and security assessments to identify and remediate potential risks and weaknesses in existing software programs.
- Develop and test new applications with a focus on embedding security features from the ground up, ensuring compliance with industry security standards.
- Oversee the deployment of software tools and continuously monitor, maintain, and upgrade systems to protect against emerging security threats and ensure system reliability.

SENIOR WEB DEVELOPER – DAILY JUGANTOR – 01/11/2021 – 30/11/2022 – DHAKA, BANGLADESH

- Develop and maintain secure RESTful APIs to ensure reliable and protected data exchange across systems.
- Design and implement reusable, secure code libraries for building a new Content Management System (CMS) to efficiently manage news articles.
- Collaborate closely with cross-functional teams, including developers, UX designers, business analysts, and system administrator,s to align software solutions with user needs and security best practices.
- Conduct research, design, and manage software programs with a focus on scalability, maintainability, and embedded security features.

- Identify and integrate new system features by working collaboratively with developers, designers, and system administrators, prioritizing secure and robust implementations.
- Provide comprehensive training and ongoing support to internal teams, emphasizing secure usage and maintenance of software tools.
- Oversee deployment processes and maintain and upgrade existing systems to ensure continuous operation, security, and compliance with evolving technological standards.

WEB APPLICATION DEVELOPER – IGONET IT – 01/08/2018 – 30/10/2021 – VILLNUS, LITHUANIA

- Participate in the full software development lifecycle, with a strong emphasis on coding, debugging, and delivering high-quality applications.
- Develop server-side rendered Single Page Applications (SPAs) using Vue.js, Vuex, and Nuxt.js frameworks to ensure optimal performance and user experience.
- Lead and manage a small development team for over a year, fostering collaboration and guiding project execution.
- Write clean, maintainable, and efficient code to build functional and scalable web applications.
- Troubleshoot and debug complex issues to ensure application reliability and user satisfaction.
- Implement innovative technologies to modernize and enhance legacy systems, improving overall system performance and security.
- Collaborate closely with front-end developers to seamlessly integrate user-facing elements with server-side logic.
- Gather, analyze, and address technical and design requirements to meet project goals.
- Stay current with emerging technologies, consistently writing reusable code and libraries to support future development efforts.

● EDUCATION AND TRAINING

01/01/1999 – 26/05/2009 Noakhali , Bangladesh

SECONDARY SCHOOL CERTIFICATE Sukhchar Mofizia High School

Field of study Science | **Final grade** 5.00/5.00 | **Level in EQF** EQF level 2

01/09/2009 – 30/10/2013 Rangamati , Bangladesh

DIPLOMA IN ELECTRICAL ENGINEERING Bangladesh Sweden Polytechnic Institute

Field of study Electrical Engineering | **Final grade** 3.49/4.00 | **Level in EQF** EQF level 5

03/05/2015 – 14/01/2021 Dhaka, Bangladesh

BACHELOR IN COMPUTER SCIENCE AND ENGINEERING International University of Business Agriculture and Technology

Website <https://iubat.edu/> | **Field of study** Computer Science and Engineering | **Final grade** 3.46/4.00 |

Level in EQF EQF level 6

● LANGUAGE SKILLS

Mother tongue(s): **BENGALI**

Other language(s): **ENGLISH**

● SKILLS

debug software | Web technologies: J2EE, RESTful Services, HTTP, SOAP | use software design patterns | develop software prototype | computer programming | PHP | JavaScript | MySQL | SQL | Laravel, Livewire, Tailwind CSS, Vuex, Nuxt.js
